Subject: RE: Agency Contacts

Hey Guys –

See the note from JoLynn below. We are trying to specify the right numbers to call for questions or issues related to air quality, health concerns, and livestock/animal safety.

Are there any reference documents or suggestions you have other than to use what general hotline numbers we can find online? Thank you for any suggestions you may have.

Subject: Agency Contacts

Joe,

We have identified some key themes from the community hotline and local social media groups. Neighbors seem to be concerned with air quality, health concerns and safety of animals and livestock. We are working on a larger press release and plan to include resources including the Carus community hotline and other regulatory groups.

I'd like to provide the best contact information for groups like the US EPA, Illinois EPA, Health Department, Department of Ag, DNR, etc. Do these groups have a preferred phone number or website for us to refer people to?

Thanks,

JoLynn Anzelc
